How To Rank Your Youtube Video In Google And Make Money With It:

How To Rank Your Youtube Video In Google And Make Money With It: So one of the hottest topics in SEO and digital marketing today is video marketing, video ranking, and the kind of Marketing Attribution to acclimatize. Social Firestarter homepage provides internet marketing services for every marketing need. The reason is that it is effective; people are proven to prefer video over text (aside from this site of course), its far less expensive than it once was, and compared to ranking a website in Google it is often much easier costing less time and less money. The purpose of this series isn't necessarily to show you how to achieve

Google rankings for your video, though we will touch upon that, it is more to show you how having a high ranking video can help your business and your brand by increasing your brand recognition and getting more customers.

SEO for Ranking Youtube Videos On Google:

Just to bring anyone up to speed that may not be familiar with video SEO or what I mean when I say video ranking I will quickly explain. “Ranking” is a process of making a website or video show up higher in search engine results particularly Google and Youtube. The goal is to have your property show up for a search term that will appeal to the person searching for it and have them buy your product or consume your content. An example of a Youtube video ranking in Google:

The image is a screenshot of a Google search page. The browser's address bar shows the URL <https://www.google.com/#q=horry+county+seo>. The search bar contains the text "horry county seo". Below the search bar, there are navigation tabs for "All", "News", "Maps", "Images", "Videos", "More", and "Search tools". The "All" tab is selected. Below the tabs, it says "About 22,200 results (0.40 seconds)". The first search result is a YouTube video titled "Horry County SEO - YouTube". The video thumbnail shows a person standing next to a laptop with a thought bubble above it. The video details include the URL <https://www.youtube.com/watch?v=Eoleuv1nCuA>, the upload date "Feb 20, 2016", and the uploader "Superstar SEO". Below the video title, there is a line of text: "Horry County SEO. ... Horry County SEO. Superstar SEO. SubscribeSubscribedUnsubscribe 11. Loading ...". The second search result is "Horry County SEO on Vimeo" with the URL <https://vimeo.com/user51203664>. The description says "Horry County SEO is a member of Vimeo, the home for high quality videos and the people who love them.". The third search result is "Horry County Government - Home" with the URL www.horrycounty.org/. The description says "Official site. Offers links to employment, elected official and departmental e-mail addresses, county ordinances, and voting precincts."

See how when you Google search “Horry County SEO” the first result is a Video? That is essentially what we are trying to achieve with video ranking.

We can see a similar effect on Youtube:

If you have ever searched for anything online then the value of this should be obvious. The top results get the most clicks, the most traffic, and in turn the most sales.

That should give you a general idea of what I mean by video ranking.

So now that we know what video ranking is and why it is valuable the next question is most likely “so how do we do it?”

Some Point To Rank Your Youtube Videos:

Video ranking could be a course all by itself, and in fact, I may be releasing one at some point, but basically here are some general steps:

- Name the video file the search term you wish to rank for
- Make the title of the video the term you wish to rank for
- Upload a thumbnail for the video. Make the filename the term you wish to rank for
- Make the tag of the video the term you wish to rank for and make some synonyms of the term as tags as well (IE: Horry County SEO, SEO Horry county, etc...)
- Set the location of the video to the area you want to rank for if it is a local term. For instance, in the Horry County example, we would set it to Horry County
- Add the search term a few times in the description of the video.

As you can see this gets pretty involved. These are just some of the “on page” steps. We will go more in-depth in

the future but if you have a video you want to rank right away it will probably be easier to get a [done for you video ranking service](#) these are really reasonable and you are handing it off to people that do this for a living.

Some Tips To Get Fast Result:

So we've established what video ranking is, and how to do it we still need to answer the question: How To Rank Your Youtube Video In Google And Make Money With It.

Ranking your video alone is not enough. It must also keep people engaged, explain what you have to offer, sell them the product or service, and leave a lasting memory of your brand. This is where having a quality video comes in.

Making a video may seem like a daunting task but it is actually super easy to make a high-quality video that will represent a specific business.

So the single most important thing in making a video that converts is having a memorable intro or outro. This is just

a few second clips at the beginning or end of your video that shows your brand logo in a fun or creative way.

You could honestly make some good money just selling those to other people! I know what you are thinking though... “I don’t have any tech skill and don’t have the money and time to invest in a bunch of software and courses teaching me how to make them” and I hear ya; I don’t either... but I made both of those in a total of about 10 minutes using an app called [ARVO.](#)
