How To Promote Clickbank Products Using Facebook Groups And Not Getting Flagged

Hello Guys, In this guide I will share with you how to promote clickbank products using facebook groups without getting flagged by facebook, why facebook groups ? Well, facebook groups are the best way to drive traffic to your link but you have to do it the right way.

Of course there are many ways to drive traffic from facebook.

Example: creating facebook page for your website or posting in your personal timeline. but many people prefer having their activity for themselves, so they prefer using facebook groups.

So, Let's get started!!!

First of all you have to search for these groups. Simply go to Facebook search bar and write: make money online or affiliate marketing or business opportunity or MLM, Work from home etc. Join these groups, see ideas from others, and do something like that. (in case you are promoting making money products) if you are not just searching for groups related to your topic.

Tip: Join max 10 groups per day, otherwise facebook will flag you.

When you create a post on facebook groups don't put your link in the post!!!

Why? Simple because no one will comment and your post will not get engagement.

When someone comments on a post. This post will bump to the top of the group, and will be seen by many more people

Let the people ask you in comments, for example: i will teach 20

people how to make 100\$ per day with digital marketing. Be

quick, say

me!

When they comment, answer them with your link

How to avoid Facebook Flagging!!! Create 8 posts per day

Don't go crazy guys. If you do over eight posts a day, it is very

likely that Facebook will flag your account, block you for several days,

or even lose your account if you make the same mistake over and over.

Believe me 8 posts is enough to see results.

2. Leave some time between posts

When you make a post, do not make the next one immediately.

Create one post, wait 2–3 minutes-create the second one

3. Don't use the same text or image on your posts over and over.

It's ok to use the same text for 2 posts per day, but not for 8 posts.

I advise you to save on a word document, 10–20 different texts to use them daily.

Now for the image. If you want to use the same image over and over

you have to change the image Id and name. Personally I use [Gimp](#).

Simply go to google-type Gimp and download it. The process is:

1. Import the image to Gimp,
2. export the image on your computer with a different name.

In this way Facebook thinks the picture is unique!!!

4. Avoid words like earn or business

For example: I will teach 20 people how to earn 100\$ daily. THIS IS WRONG!!!

I will teach 20 people how to make 100\$ daily. THIS IS RIGHT!!!

5. Don't answer comments too fast!

Answer 3–4 comments, wait 3 minutes, answer 3–4 more. This is ok to avoid facebook flagging

That's all guys, Hope it helps.

All the best.
